In preparation for the next Nationwide Caravan meeting taking place in Berlin from the 14th-16th of March 2014 in Almende (Kottbusser Damm 25-26), we, different refugee and migrant political groups under the umbrella of the Caravan for the rights of refugees and migrants Berlin are organizing mobilization and solidarity events in Berlin.

Do we occupy spaces or spaces occupy us? ///The rules of engagement /// Political events and meetings of the Caravan for the rights of refugees and migrants /// Lager Mobilization

Objectives and Challenges of the Caravan:

- * To increase political contacts and networking in the lagers in and around Berlin.
- * Intensive political exchange with new coming activists in and around Berlin
- * Develop self-support refugee and migrant initiatives in the ongoing protests and documentation, coupled with the financial aspect of the struggle.
- * Discuss possibilities to further strengthen our networking and political capacities - How can a greater self-organization be achieved?
- * How can the different struggles be brought together and how can we share experiences with others?
- * How can a greater migrant and country of origin public awareness be achieved?
- * Financial situation and establishment of our self-organized and independent initiative.
- * Continuation of discussion and documentation of tribunal testimonies and further steps for the preparation of the next Tribunal against Germany.
- * Statements and exchange of views on current political development and the space debate in and around Berlin.

The Caravan Perspective:

Our aim is to motivate and mobilize Refugees and Migrants to fight for their rights. In addition, we stress within the network of the CARAVAN for the rights of refugees and migrants the connection between situations and problems in our home countries and the countries in which we seek asylum or migrate to, as our slogan makes clear: "We are here because you destroy our countries." So it is not just about escape and protection, but we are concerned with a system change, a struggle against Imperialism, capitalism and the mass and neocolonial exploitation of our resources.

Concrete Challenges of the Network:

Our main battle currently, is the struggle for equal rights for all in Germany and elsewhere. We are fighting for the abolition of all racist immigration laws and we are against any type of deportations, capitalist wars and exploitation. The Article 1 of the German constitution has to be respected. The dignity of a human is untouchable no matter what nationality a person has.

We are for a SYSTEM CHANGE and the way to that is how we build our Network.
