

IF YOU DON'T KNOW WHAT IS DUBLIN 2 OR 3
this message fortunately is not for you.

We know that in the last months German
Bundesamt is preparing to execute thousands of
Dublin Deportations: mostly to Italy, Hungary
or Poland.

Maybe you received a letter telling you that
your asylum case in Germany will be closed and
you have to be sent back to one of those
countries, because your fingerprints have been
found there.

Maybe in one of those countries you already
have been living on the streets or you have
been jailed without reason, even though you
have right to international protection.

Don't take it. It is an institutional abuse
against your person and against the
international Human Rights.

You are not alone. Don't stay silent, waiting
for the deportation to come.

Come to Pariser Platz from 4 to 8pm every day
in front of the European Union Representation
(SBahn Brandenburger Tor)

We are there to demonstrate, share information,
organize resistance.

Let's make together Dublin III illegal!
